

Message: Should I Visit?

December 6, 2021

Yahweh shares a Kingdom view for the many people groups within the United States. Here are Yahweh's words:

Who can say what a good ruler is? Is the democratic system that prevails a truthful way to look at the current way of living with fair drinking? Or should the people turn to Kingdom order and submit to the Ultimate God who is Ruler over all? Can you see this fear? The people do not really want a ruler who tells them what to do. They want to give their way a ruling way and then blame what the leader pushes.

Can any leader give any solid backing if they drink their own way of viewing how work should look? How was the order coming forward in Yahweh's plan? How can darkness and light think the same? There will be an accurate seeing of how Kingdom order must move forward when there is a seeing that Christian living is taking on a democratic way.

People aim to tell Yahweh how to run the work when they should bow and seek Yahweh as to what plan is coming to the natural way. They want Me to give them their will based on them barking out orders when there should be a humbling plan, begging for Yahweh to visit them.

Should the Way yield to a created being? Should I ignore how the influences—both natural and spiritual—bend the people to think I am a weak God? There will be a judging way when I give a house cleaning.

Will I visit the nation that tells these people that it's okay to worship many gods?
