7:35 p.m.

**To the land of Yemen, Yahweh says this:**

World Prophet Seersgate speaks a will from Yahweh, giving an outlet of great pouring out of purpose, provision, and real power. Who can give a starving land a look at how the Kingdom culture should move forward as? It's only with Kingdom culture that the way can shift and change into what Yahweh gives it to move forward into.

Who can say what the Kingdom would become? What can bring a real surging forward? Please see. Yahweh doesn't give false hope and fake comforting ways to make any feel that their way is better.

I will need to shift what the Gospel looks like and bring real sign gifts forward that will heal and restore how others see Yahweh.

Yahweh is a real God, the only One True God. I will visit citizens of this outlet through visions and dreams and the materialization of angels who are given a plan to bring My will into your gatherings.

Do not yield in waiting. Do not give up on how things were before oppression. This message seems a common detail, but what if there is a real way to feel the spirit realm? What if there is a real way to take in real spiritual engagement that will bring people into a way to know?

Food, natural food is not the only way of maintaining a way to live. What if there needs to be My power in this new coming age? What if it's time to build healing rooms? What are you going to move forward with under the way of engagement with Me? What are you going to offer?
