## For the President of the United States of America

May 11, 2013

President of the United States of America

### **The Servant speaks the Great Way's will:**

Listen and hear the will way of the Great Way King Jesus: The Lord is moving to bring a major shift in the nation known as the United States of America that shall move in shaking the very foundation of the land in all realms and regions. Most will not be able to embrace a major detail as a change in the way the nation moves without first seeing a Great God move to bring a weapon that shall be spiritual in arms. But the plan is already being released in this earthly will way in the United States of America and shall be a new will that will supersede all previous plans in the President's current advisors' mouths. What must take way for the nation's leader to see that it will take an embracing moving to drink in Kingdom living to break free from the chains of the current system? Why will the land and the nation think it can move in true liberty without a true Liberator? No human has the power to set another human free. Why has this been placed into laws as if a law would bring a true freedom into a human that plans with human wisdom and might? What would it take for a release in your planning way, for you to move over into a spiritual moving of supernatural proportions to change the way that the leader views his will in leading this nation? What would it take to give a will way in a full presentation to give a new moving in a governing detail to shift how the nation operates? Has any leader found a solution through their governing structure in place? Has any way been given that has healed the nation of the torn movings within its details? What way is given to set the

nation free from its moving to destruction? Has any solution been made clear in your meetings? No other earthly nation would know your true detail. No earthly council will know your true solution without a Planner who knows the will way given in His eternal will. How could any leader give a leading will based on the people's will? Now consider this: what shall be the steering will in this nation if there came a plan that is founded on a premise not of human planning but of a True God that will make a way to move to implement a full infiltration of a Kingdom system to bring a release into earthly affairs as given in human governing details? What would take place if that leader in a nation submits a will in leading a group, to move in being a moving to bring a release into the earth to bring true healing, power, resources, and purpose to those who move in its borders? What would take place when a nation submits their way to an order through a governing will that is greater than any human will? It would take great power to move in this level to influence a nation to drink a system that supersedes their way in previous laws and systems. A great power is here in the earth in the plan to be released into different realms and regions so you can feel it, taste it, embrace it as a new plan in moving to lead the nation well. This power cannot be contained. It cannot be purchased. It cannot have a human's motive. It truly is not of this world, yet it will be given to bring a major shift into the way the earth is governed so true freedom can be released, and Kingdom living that has a spiritual base that stems from the Great King Jesus can now have a platform in the planning will way in the earth as a whole. So, move in this new way, to seek the God who wills to do this new thing to change the way the nation moves, to fully embrace a freedom not given through earthly human planning. Here is the will: a true submission in this leading to a Great God who will move to protect you as you submit to His will and

### For the President of the United States of America

take a new plan in a spiritual covenant—not through religions, but through relational details that are eternally based but effectively moving to be in this current way that can be felt and experienced through daily living that can change the way in a person's will in each detail. And choices must be made. And wills in full submission must be given. But who would take a risk to trust a Great God who cannot be seen? Only will this be moved on when God's plan is given a platform with His great power to prove the will is the plan He gives, and all will take a look to move to drink His will way in a new detail to bring a Kingdom that is eternal into the nation, its people—to move in full infiltration to shift the way the world as a whole moves to daily live out each plan. But this way is with purpose through eternal perspective, hope, and power to heal, rebuild, to restore. You will drink it as you taste a will way in the environment that surrounds you. Angels have been given a will to give to this nation and to bring a will to its leader, the President of the United States of America, so he will move to speak it, to embrace it, to run with it in spirit and in truth. Amen. Amen. Amen. The Great King has given His seven messages that cover the will plan in the new detail. All will truly move in tasting this major will but can only submit to a Great King through receiving His plan of eternal life found in King Jesus. Amen and Amen. The will is done. The plan is given. The prophet has spoken—but not of human will but through her giving it based on her Great God's will—the Great Way King Jesus.
